<b>Phone</b>	0800-377-753

### Product

Engineered Timber Flooring as specified in our [range statement](#).

### Description of Engineered Timber Flooring

Bjelin Engineered Timber Flooring refers to a multi-layered modular wood floor covering, typically composed of a hardwood 2.5 mm or greater veneer top layer bonded to a wood block or plywood core and a wood veneer backing board makes up the stabilising base layer.

Belgotex (NZ) Ltd supplied Bjelin Engineered Timber Flooring can be floated or direct stuck and utilises a joint click lock system for assembly.

When installed, Bjelin Engineered Timber Flooring may contribute to G6 (airborne & impact sound) or H1 (energy efficiency) of the building.

Engineered wood flooring is supplied in plank format and sold by the square metre.

### Building Code Obligations

When installed Belgotex Engineered timber flooring meets the requirements of the Building Code clauses detailed below.

Code Clauses	Compliance Pathway	Evidence
B2 (Durability) B2.3.1(c)	Alternative Solution	Bjelin Engineered Timber Flooring has an expected minimum service life of 20 years, when correctly installed, cleaned and maintained in accordance with manufacturer's instructions and has been tested in accordance with EN 13696.
