

Features and Benefits

100% New Zealand Premium Wool

Sourced from New Zealand's finest wool-growing regions, Cotswolds offers a naturally soft, breathable underfoot experience with the inherent resilience that only pure wool provides. Comfort that holds its character over time.

CoreLoop™ Construction

EC's signature loop pile construction supports every loop in place, maintaining structural integrity in high-traffic areas. Rated Residential Extra Heavy Duty (6*). Built for the demands of premium residential living where durability is non-negotiable.

PestGuard Pro™ Long-lasting Protection

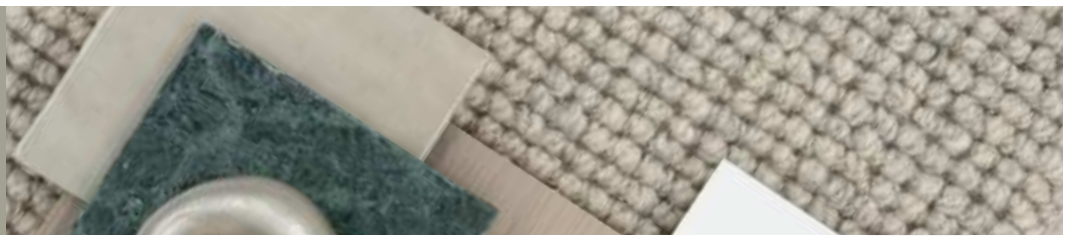

PestGuard Pro™ uses a next-generation protective treatment that bonds to each wool fibre. Unlike standard industry treatments, it resists UV degradation and it is less likely to wash out over time, delivering lasting protection against wool moths and carpet beetles.

PawGuard™ Pet Friendly Protection

PawGuard™ protection guards against the wear and claw damage that can compromise the surface of wool carpets. Combined with wool's natural stain resistance, Cotswolds handles everyday spills and pet households with ease, maintaining its refined appearance with minimal effort.

PureAir™ Natural Air Purification

Wool is one of nature's most effective air-purifying fibres. PureAir™ harnesses this natural ability to absorb and neutralise the invisible pollutants that accumulate in everyday home environments, contributing to cleaner, fresher, healthier indoor air for you and your family.
