

## Fairbanks Floor Rug

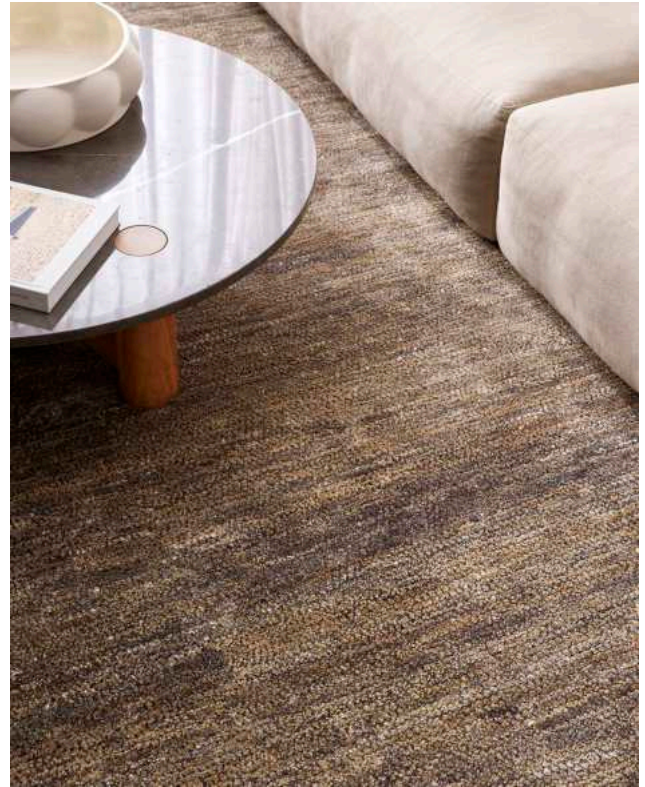

An upgrade to our popular Anchorage range, the new Fairbanks collection effortlessly combines contemporary design with low-key luxury. Handwoven from a blend of bamboo silk and jute, its denser, heavier tufted pile enhances both texture and durability. Subtle colour gradations add depth, while the natural colourways provide the foundation for a thoughtfully curated, grounded interior.

### CARE INSTRUCTIONS

Do not wash or dry clean. Do not use water on a viscose floor rug, as this may cause a yellowing of the fibres. Instead, spot clean any spills with paper towels, or a clean white cloth dipped in an acetic or citrus solution. Viscose fibres are very absorbent, so use the solution sparingly. Gently dab at the mark, never rub. Dry the area as quickly as possible by placing the floor rug in a breezy or warm and dry area of the house. For a deep clean we recommend using a skilled specialist.

Initial shedding is common as the fibres settle. Lightly vacuum regularly using suction only. Avoid using a brush head, as this can cause matting of the fibres. You can also shake your floor rug outside to remove dust and dirt.

### MANUFACTURING VARIATIONS & CONSIDERATIONS

This floor rug has been handcrafted by artisan makers. Although we strive for consistency in our products, the complex nature of this process may reveal minor variations.

**SIZE** This can vary +/- 3% from the size specified.

**COLOUR** You may notice slight colour variations from samples, online, and print images. As many of our products are handmade from natural fibres and materials, there may also be minor variations between production runs and dye batches. Every effort is made to ensure these are minimal and within textile industry standards.

**SPROUTING** Sprouting occurs when fibre ends wriggle loose and appear above the natural pile height of the rug. Sprouting is common in handwoven rugs and not considered a fault. To maintain a neat appearance, simply trim the loose fibres with scissors to match the surrounding pile.
