## DESCRIPTION OF BUILDING PRODUCT / INTENDED USE

Floorscape Laminate is a floating floor covering made of 99% wood fibre products. The 3 main components that make-up the Laminate are Wood fibres, Paper, and Melamine. The top layer of paper, the printed décor layer, and the balancing layer in laminate flooring are all infused with melamine which gives the flooring moisture resistant properties, as well as a very high level of durability. All Floorscape Laminate has waterproof surface, anti-static and anti-slip properties. All Floorscape Laminate includes our innovative Uniclic® joining system to ensure a tight joint and ease of installation. Floorscape Laminate is known for its durability, versatility, and aesthetic appeal. It is designed to mimic the look of real wood or stone, but with the added benefit of being more resistant to moisture and scratches. Floorscape laminate is provided in a variety of sizes and decors. The full range of Floorscape Laminate product can be found at [www.floorscape.co.nz/products/laminate-flooring](http://www.floorscape.co.nz/products/laminate-flooring)

## RELEVANT NEW ZEALAND BUILDING CODE CLAUSES

CLAUSE	EVIDENCE
<b>B2 Durability — B2.3.1 (c)</b>	Floorscape Laminate has durability of over 20 years where installation, and care and maintenance instructions are followed. Durability is proven through achieving the requirement of standard EN13329 : Laminate floor coverings (EPH test certification)
<b>C3 Fire affecting areas beyond the fire source — C3.4 (b)</b>	Floorscape Laminate meets the requirements of C3 through ISO9239-1 Reaction to Fire Tests for Floorings. Determination of the Burning Behaviour using a Radiant Heat Source test achievement. (AWTA test certification)
<b>D1 Access Routes — D1.3.3 (d)</b>	Floorscape Laminate has slip resistant ratings per standard AS4586:2013 Wet Pendulum Slip Resistance Test (ATTAR test certification). In the case where required slip ratings for stairs are not met, it is recommended that Anti-Slip Tape is applied.
<b>E3 Internal moisture — E3.3.3, E3.3.5, E3.3.6</b>	As an 'Alternative Solution', Floorscape Laminate is proven to be impervious and easy-to-clean through ISO4760 Topical Moisture Resistance – assembled joint (NZWTA test certification), and through the following of care and maintenance instructions. See further detail here:  <a href="#">E3 Documentation - Floorscape</a>
<b>F2 Hazardous building materials — F2.3.1</b>	Floorscape Laminate meets the requirements of standard through standard EN717-1 : VOC Emission Standard: Wood-based Panels (Eurofins test certification)
<b>G3 Food preparation and prevention of contamination — G3.3.2 (b)</b>	Floorscape Laminate meets this requirement where care and maintenance instructions are followed.
<b>G6 Airborne and impact sound — G6.3.1, G6.3.2</b>	Floorscape Laminate has acoustic certification for standard ISO140-7 : Sound Transmission and Insulation standard (SPR test certification)

Supporting documentation for the above can be found at [www.floorscape.co.nz/technical-hub](http://www.floorscape.co.nz/technical-hub)

## SCOPE OF USE AND LIMITATIONS

SCOPE	LIMITATION
Can be installed in all general interior areas of a building, including high traffic areas	<ul style="list-style-type: none"> <li>- Remove all existing carpet or soft flooring and underlays</li> <li>- Is not recommended inside showers or saunas</li> <li>- Must be installed over recommended underlay (floating only, no glue-down)</li> <li>- Not suitable for exterior use</li> <li>- The floor must be able to move freely</li> </ul>

	<p>- All subfloors need to be sound and structurally stable enough to be installed atop. Any loose parts of the subfloor or hard flooring need to be secured, repaired, or removed and replaced. Subfloor must be flat with no unevenness greater than 2mm over the length of 1 metre in any direction. Clean and free of old adhesives, building rubble etc prior to installation. Concrete subfloors must test below 80%RH. Timber subfloors must test below 14%MC.</p> <p>- See Installation &amp; Care and Maintenance Instructions for further information <a href="http://www.floorscape.co.nz/technical-hub">www.floorscape.co.nz/technical-hub</a></p>
Suitable for Underfloor Heating systems	- See Underfloor Heating System Instructions <a href="http://www.floorscape.co.nz/installation/laminate-installation">www.floorscape.co.nz/installation/laminate-installation</a>
Suitable for Wet Areas (E.g., Bathroom, Toilet, Laundry, Kitchen)	- Suitable for use in wet areas if specific installation requirements are met as detailed here: <a href="http://www.floorscape.co.nz/installation/laminate-installation">www.floorscape.co.nz/installation/laminate-installation</a>

Supporting documentation including Installation instructions, Care and Maintenance instructions, and warranty information can be found at [www.floorscape.co.nz/technical-hub](http://www.floorscape.co.nz/technical-hub)

## RESPONSIBLE PERSON

As the responsible person as set out in Regulation 3, I confirm that the information supplied in this declaration is based on information supplied to the company as well as the company's own processes and is therefore to the best of my knowledge, correct.

I can also confirm that Floorscape Laminate is not subject to a warning or ban under [s26 of the Building Act](#).

Signed for and on behalf of Floorscape Limited:

Mike Caird
