Why Karndean LooseLay?

Quick and easy to install

With its unique friction grip K-Wave backing, Karndean LooseLay is quick and easy to install.

Individually replaceable

If a plank or tile is damaged, LooseLay is very easy to lift and replace.

Reduces noise transfer

Reduces noise transfer to rooms below, making it perfect for upstairs bedrooms, playrooms or attic/loft conversions, as well as multifamily or office blocks.

Comfortable underfoot

Our products are much warmer and quieter underfoot, giving you the look of real wood and stone but without the drawbacks of cold tiles or clicking shoes.

Realistic designs

The most realistic designs. Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.

Compatible with underfloor heating

Up to 27°C

100% recyclable

Durable

Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.

Low maintenance

A regular sweep and mop with Karndean Clean is all you need to keep your Karndean floor looking great. With Karndean, you also don't have to worry about any sanding, refinishing, staining or varnishing.

*Adhesive may be required for some applications, please refer to installation instructions.

Colour and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in colour and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.

We love developing new ideas and improving on our existing designs. This does mean that sometimes products are withdrawn at short notice. We hate to disappoint, and will always try to work with you to find an alternative design that you love just as much.
